

Akash Khurana

Senior Frontend / Full Stack Engineer · Angular · Next.js / React 19 · Node.js · Low-Code PaaS · Three.js · Leaflet
akashkhurana55@gmail.com · +91-9871349123 · Bengaluru · [linkedin.com/in/akash-khurana](#) · [github.com/akashkhurana](#)

SUMMARY

Full Stack Engineer with **5+ years** owning complex systems end-to-end — from architecting a low-code PaaS platform that powered **10+ client projects** with **40% faster delivery** and zero custom-code rework, to building production infrastructure for **Walt Disney Parks & Resorts** at global scale. Deep across the full stack: Angular (Signals, NgRx), Next.js/React 19, Node.js/Express.js, MongoDB, and MySQL. Delivered **90% bundle reduction**, reusable platform modules that eliminated per-project rebuild effort, and **99.9%+ backend uptime**.

EXPERIENCE

Senior Software Developer

Reactore

Bengaluru · Apr 2023 – Present

- Led design and development of a **low-code PaaS platform** enabling internal teams to generate full-stack Angular + Node.js applications — owned the **component/module system**, **UI rendering engine**, and **API contract layer** between frontend and backend generators, reducing client solution delivery time by **~40%**.
- Engineered **Three.js 3D mine model rendering** as a platform feature — real-time underground structure visualisation for a mining industry client, eliminating the need for a dedicated 3D toolchain.
- Built **Leaflet geospatial vehicle tracking** module into the platform — real-time fleet position plotting and route overlays for a logistics client, shipped as a reusable configurable component.
- Architected **Node.js/Express.js REST API layer** with JWT auth, request caching, and business-logic services — reduced average API latency by **~35%** across platform-generated applications.
- Delivered **90% bundle size reduction** via code-splitting, tree-shaking, and lazy loading — cut TTI by **~3s**, improving Core Web Vitals across all platform-generated SPAs.
- Drove 3 Angular codebases to v15+ with **Signals** and **NgRx**; enforced PR standards for a 5-engineer team — cut bug density **~40%** and halved contributor onboarding time.

Software Developer

Capgemini

Remote · Mar 2021 – 2023

- Full-stack features for **Walt Disney Parks & Resorts** — Angular SPA + Node.js/Express.js APIs + MongoDB/MySQL, serving **millions of global users**; built Node.js microservices sustaining **99.9%+ uptime** and shipped SSO (MyID) + **i18n across 5+ locales**.
- Led **multi-major Angular framework upgrade** across 3 cross-functional squads in production — zero regressions, zero downtime, no SLA impact.
- Shipped enterprise **SSO (MyID)** and **i18n across 5+ locales** — enabled Disney's international rollout without architectural rework.
- Owned **Splunk / Grafana / AppDynamics** observability — surfaced 10+ critical anomalies proactively, preventing SLA breaches on high-visibility guest services.

Software Engineer Intern

Fareportal

Gurugram · Jun – Aug 2019

- Refactored legacy JavaScript into a **modular architecture** — reduced maintenance overhead by **30%** and improved feature delivery velocity across the frontend team.

TECHNICAL SKILLS

Frontend	Angular (Signals, NgRx, v2–v17) · Next.js · React 19 · TypeScript · JavaScript (ES6+) · RxJS · HTML5 · CSS3/SCSS · Ionic
UI & Creative	Three.js (3D / WebGL) · D3.js (Data Visualisation) · Leaflet (Geospatial / Real-time Tracking) · Framer Motion · Responsive Web Design
Backend	Node.js · Express.js · REST API Design · JWT Auth · Session Management · Microservices · API Contracts
Databases	MongoDB · Mongoose ODM · MySQL
DevOps / Cloud	AWS · Jenkins · CI/CD Pipelines · GitHub Actions · npm
Observability	Splunk · Grafana · AppDynamics · Karma · Jasmine · Unit & Integration
Other	Python · Git · Agile/Scrum · Low-Code Platform Dev · Technical Mentorship

EDUCATION

B.Tech — Electronics & Communication Engineering

GGSIU · Delhi · 2016–2020 · CGPA: 7.55 / 10

12th · Delhi Public School, Faridabad · 2015 · 68.8%

10th · Divine Public School, Faridabad · 2013 · 8.8 / 10

CERTIFICATIONS

- Agile Software Development — Coursera
- The Web Developer Bootcamp — Udemy
- DS&A using Python — NPTEL
- Machine Learning A-Z — Udemy
- IoT using Raspberry Pi — NPTEL
